Swiss twin brothers, born on July 9, 1992, we started triathlon in a competitive way around 2003. We integrated the **regional selection** early after, and then the **national team** in junior, participating in **European cups** and even **European Championships**. While studying at university, we shifted our focus to **long distance** triathlon and achieved, the day of our 25th birthday, our ambitious goal of performing **sub-9 on our first ironman** in Frankfurt. Direction **Kona** for Daniel in October 2017 and PRO license for both of us starting 2018.

We are seeking for your help, especially **material support**, for our competitions and numerous hours of training. As a counterpart, we can offer you visibility on our weblog <http://www.besse.fr.nf/> (in French), our trisuits, as well as our connections in triathlon.
